CORE SKILLS

C# / .NET Core
React / TypeScript
SQL / PostgreSQL
Python
Angular
AWS / Azure

TOOLS & PLATFORMS

Docker · Git · OpenAI · Twilio ·
SignalR · UiPath RPA ·
SAP B1 · DevOps
WebSocket

AI-ASSISTED DEVELOPMENT

Claude Code · OpenCode

LANGUAGES

Spanish — Native
English — Advanced

EDUCATION

B.Sc. Computer Science
University of Sonora
Academic Discipline in AI

Abraham Saul Sandoval

Full-Stack Developer & AI Integration Engineer

Full-Stack & AI Engineer with 10+ years of experience building software across backend, frontend, cloud, enterprise integrations, and AI-powered applications.

Proven track record of building applications from the ground up, with experience in LLM integrations, real-time voice systems, speech-to-text pipelines, and AI-driven conversational workflows. Strong background in C#/.NET, React, Angular, Python, Azure, and AWS.

EXPERIENCE

PhoenixCare Mar 2026 – Present • **Current**

Software Engineer — Remote

Contributed to AI-powered healthcare voice workflows, improving RAG-based conversations and developing patient hotline flows for inhaler technique, medication information, and COPD education. Implemented scheduled post-ED monitoring calls with deterministic patient-progress analysis, integrated into care plans and dashboards.

Python · AWS Bedrock · LLM / AI · TypeScript · React · Lambda · PostgreSQL ·
DynamoDB · Twilio · WebSocket · Docker · OpenAI

Excelia — Grupo CARSO Apr 2024 – Apr 2026 **2 yrs**

Full-Stack Developer Consultant — Remote

Built SigOps from scratch, an enterprise project management platform integrated with Microsoft Dynamics 365. Contributed to system architecture, database design, and development standards while supporting code quality through technical guidance and reviews.

C# · .NET Core 9 · React 18 · TypeScript · SQL Server · Azure · Dynamics 365 · Clean Architecture · Azure DevOps

Trialshub Feb 2024 – May 2025 **1 yr**

Full-Stack Developer & AI Engineer — Remote · Part-time

Built an AI-assisted clinical trial recruitment platform, including an embeddable chatbot for external client sites, interactive recruiter training simulations with voice workflows, LLM-powered conversation analysis, and a dashboard for reviewing conversations, recordings, and analysis results.

OpenAI API · LangChain · Next.js · React · TypeScript · Pinecone · Twilio ·
PostgreSQL · Supabase · AWS

Pinnacle Aerospace Nov 2020 – Feb 2024 **3 yr**

Full-Stack Developer & Mentor — Remote/Hybrid

Project Genety | Feb 2023 – Feb 2024

Developed features for an aerospace requirements management system, including microservices and real-time collaboration. Mentored junior developers and contributed to technical design and code quality.

C# · .NET Core 7 · Angular 17 · TypeScript · PostgreSQL · Azure · SignalR ·
Docker · ReqIF

Project CampusCE | Nov 2020 – Feb 2023

Worked as staff augmentation for a U.S.-based development team, contributing to the admin portal for site configuration and management and student-facing e-commerce features for browsing and purchasing courses through a shopping cart, including payment processor integrations.

C# · Python · SQL Server · Azure · Multi-tenancy · Twilio · Recommender Systems · SSIS

Intersel Nov 2019 – Nov 2020 1 yr

Full-Stack & ML Developer — Remote

Developed NLP-powered virtual assistants and chatbot integrations for an omnichannel messaging platform, enabling intelligent interactions across web, social media, and messaging channels.

Python · NLP / ML · spaCy · TensorFlow · Rasa · C# · AWS · UIPath · SignalR

Qualisys Feb 2018 – Nov 2019 2 yrs

Full-Stack & SAP B1 Developer — On-site

Developed 3 key web portals integrated with SAP Business One, covering purchase requisitions, employee time tracking and reporting, and inventory operations. I took ownership of an existing portal, resolving bugs and completing the implementation to restore it to a fully functional state while providing direct technical support to the client. Developed multiple SAP B1 add-ons and integrations with external platforms including Bitrix24 and Procore.

C# · SAP B1 · Angular · TypeScript · SQL Server · SAP HANA · UIPath · .NET Framework

EDI Service Jun 2016 – Feb 2018 2 yrs

Full-Stack Developer — On-site

Developed B2B integration solutions for major retail partners including Amazon, Best Buy, and Walmart, handling EDI document parsing and generation. Built web portal features and Windows services supporting automated business integrations.

C# · .NET Framework · SQL Server · AngularJS · AWS

NPC Group — GE Appliances Apr 2015 – Jun 2016 1 yr

IT Leader — On-site

Led the development of internal business solutions across web and iOS platforms, while automating operational processes through Excel-based tools. Developed sales forecasting models using regression analysis to support business planning and decision-making.

PHP · JavaScript · Objective-C · MySQL · VBA

INova — Sempra Energy Oct 2014 – Apr 2015 Intern

Software Developer Intern — On-site

Developed an internal web portal and iOS application supporting Occupational Health & Safety operations. Automated administrative processes with Excel-based tools, improving efficiency and reducing manual work.

JavaScript · HTML/CSS · Objective-C · VBA
